From now on, the Don Quichotte product range has been enriched by a highlight which we are presenting you in this catalogue: Our brand new Route cable management system which can be used in almost every area for fast and easy installation.

**Welcome to the world of Don Quichotte!**

# Flexible, reliable, user-friendly:

## Route - the new cable management system from Don Quichotte

Route cable management distinguishes itself by an excellent price-quality comparison and its easiness to use. During the development of this portfolio, great value has been added to make sure that your work will be as easy and time-saving as possible.

Get to know our new cable management systems and be convinced by the benefits for you and your company:

- Hardly inflammable and self-extinguishing after removal of a naked flame
- Full product range according to the low voltage directive 2014/35/EU
- Tested after DIN EN 50085-1 and DIN EN 50085-2-1
- Cable ducts and accessories available in pure white RAL 9010
- Base and cover available in set
- Trunking base with perforation for installation
- Cable ducts made of PVC
- Accessories made of PC/ABS
- Device sockets made of PA
- Wide range of screws, nail-dowels and push-in dowels available in the wide fastening range of Don Quichotte

Choose out of three systems the best one for your goal: Route BASE for easy cable guiding, Route PLUS for easy cable guiding with optional device installation possibilities and Route STYLE as an eye-catcher in living- or office spaces.

For questions or support regarding the Route cable management systems, the **Don Quichotte hotline +31 492 74 50 00 from Monday to Friday between 8.00 and 16.30** is there for you.
